

Integrity is doing things for others
over yourself

[1n·teg·r1·ty]

~ noun

1. Adherence to moral and ethical principles;
soundness of moral character; honesty.

Integrity is the
courage to stand
up for what is
right.

Integrity is when you reach your destination, and can be proud of
How You Got There.

- Miranda Lempitsky

Integrity means

never

having to say
you're sorry.

- Anonymous

Integrity is doing the right thing, especially when
no one is looking. That's when your true character
can be seen.

I think integrity is staying with your beliefs,
not conforming to someone else's ideals.

Integrity is the willingness to be honest with
others as well as yourself.

- Dean Brodeur

Whatever
you do -
Do It Right

It is not what we profess, but what we
practice that gives us integrity.

- Francis Bacon

Integrity is Rays of Hope, Relay
for Life, Red Cross Blood Drive,
Food Drives, Green Club,
Names Can Really Hurt Us,
and Out of the Darkness walks

Integrity has such a major concept in life. No matter what happens
to you, you are always committed to being the best person you can
possibly be in life. No matter what other people think of you,
the only thing that matters is who you are on the inside.
It's where being a man of your word comes from.

- Joe Doyon

Integrity is honesty, reliability and
trustworthiness. When you never back down
from a challenge or take the easy way out.

Rae-Ann Brodeur

Integrity is being the one voice
that makes a change.

Integrity does not
blow in the wind or
change with the tide.

It is the inner image
of our true selves.

Living life by your commitments instead of your circumstances.

- Anonymous

Stop. Ask yourself, "what am I doing?
What should I be doing?" Integrity
is that which we hold up as the
right thing to do - even if doing it isn't
always easy as the best thing to do.

Integrity is:

Freshman, Sophomores,
Juniors, Seniors, and
Faculty. Integrity is

"Integrity is having the strength to make an unpopular decision because you know it is the right decision to make." -P. Newton

To the Class of 2011:

I am sure that for most of you it seems like only yesterday that you entered Enrico Fermi High School as ninth graders. I remember watching you arrive at Fermi for your orientation program. You all looked so much different back then. You certainly have come a long way! I'm fairly confident that your minds were filled with many questions and thoughts, although most of you were afraid to ask them. You were confused and unsure about what you would experience over the next four years of your lives. You certainly had never heard the words "Responsible Citizens Lifelong Learners".

I knew for a fact however, that you did bring with you some unique talents, ideas, and ambitions. The staff at JFK couldn't say enough great things about your class before you arrived. Your positive reputation preceded you. We couldn't wait to have you become part of our "Fermi Family".

Now, as you get ready to leave Fermi, I see you departing as much wiser, more confident, and better prepared to take on the demands of the world that awaits you outside of Fermi and Enfield. We have enjoyed all of the special memories that you have left us with in the classrooms, in theatrical and musical productions, and on the athletic fields. You have become a mature group of young adults with a very strong and positive identity. You are Fermi's Class of 2011!

As you get ready to move forward, I ask that you take time for one last glance over your shoulder to reflect on your time here at Fermi. I hope that you will take pride in all that you have done, both individually and collectively. It is my greatest wish that these four years were the best four years of your lives. I hope that you will experience success in all of your future endeavors. Remember that you will always be part of our Enrico Fermi High School family and you will always be welcome here. Good luck to each and every one of you!

Sincerely,
Paul Newton

"Integrity means to me being true to yourself."

-A. Fay

"Integrity means that you are honest and sincere in whatever you do." -K. Pellin

To the class of 2011:

Time has a funny way about it. How often have you found yourself in a situation where you keep looking at the clock, watching each second tick by, wondering if time has actually frozen in place? Yet looking back over the past four years it seems hard to believe that so much time has passed already. One of my favorite passages begins "To everything there is a season, and a time to every purpose under heaven." As you leave high school you are ending one season of your life but beginning another. Change can be a frightening but necessary part of life; one that allows us to grow as people. Embrace this time; reflect on the positive experiences, learn from the negative experiences, and look forward to your future.

The time you have spent with us at Fermi, we hope, will have sewn seeds that you will be able to reap later in life whether it is through continued formal education, work, or other service. Regardless of whatever direction life takes you, I hope that you never stop learning, that you always strive to improve yourself, and you will seek to leave our world a better place than it was when we found it.

It has been my great honor and pleasure to get to know and to work with you over the past several years. I have grown very fond of the class of 2011 and will miss you. I hope you are as proud of what you have achieved over your time with us as I am proud of you. I wish you all the best in your future.

Class of 2011,

Graduating say what? That's right, we've waited for years and finally it's our turn. It's our turn to walk across that stage. It's our turn to receive that diploma. It's our turn to throw our caps in the air. The moment we've all been waiting for is here.

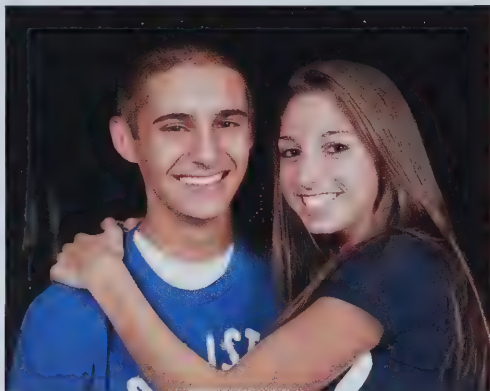

Many of us remember what Mr. Newton said to us as incoming freshmen: "Does anyone know what the number 1380 means?" When we found out that it was the number of school days until graduation, it seemed nowhere near close. Yet now, it seems like those 1380 days went by in a blink of an eye. Looking through the yearbook from our freshmen year, it's amazing to see how we have changed. We were a group of kids with those awkward picture day smiles plastered on our faces, maybe combined with some not so great hair cuts and fashion styles- but hey we were freshmen, so cut us some slack. But now it's as if a whole new group of young adults has grown up right before our eyes.

Of course, it is not only about how we have changed on the exterior. As a whole, each of us has become a smarter, more mature individual, who is done with the old high school routine and eager for a new challenge. All I have to say is that I think we are ready. I wish everyone the best of luck in your future journeys.

Your Class President,
Faye Koenigsmark

FALL

Homecoming Weekend

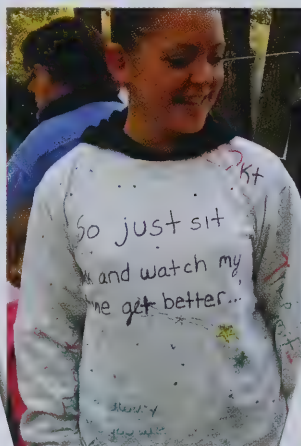

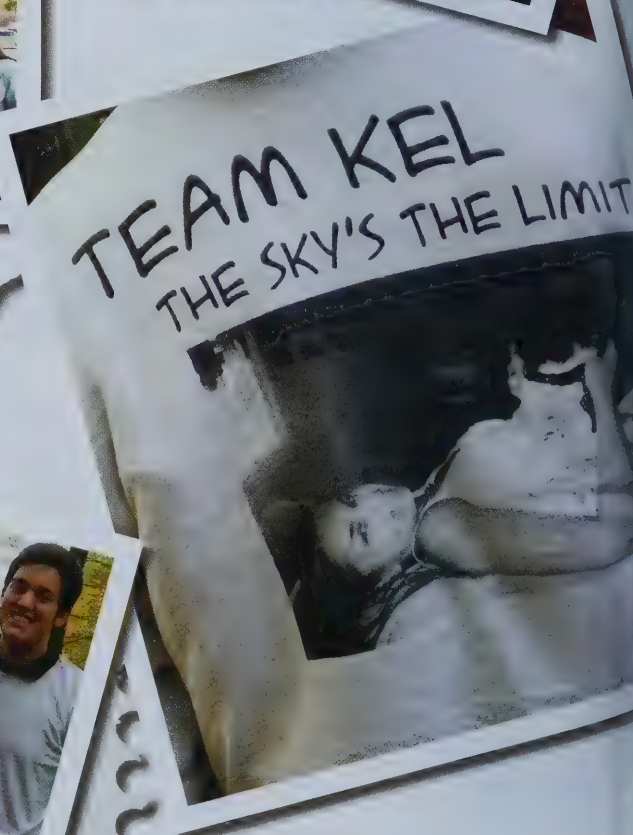

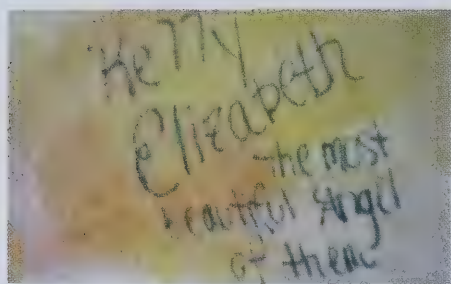

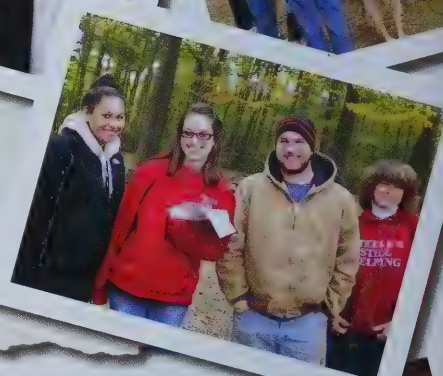

Fermi Fest, Homecoming Dance, the football game, so much to do in one weekend, but somehow Fermi kids do it all.

Out of the Darkness

In 2009, students started attending the Out of the Darkness walk to help raise awareness and prevent suicide. The idea came along when the class of 2011 lost a classmate to suicide.

Rays of Hope

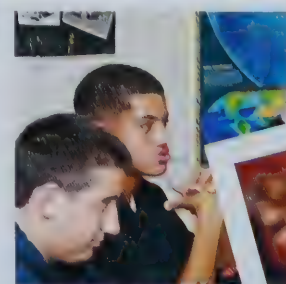

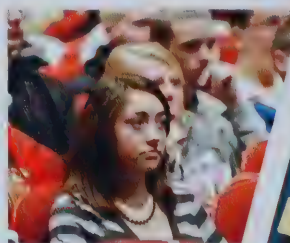

Rays of Hope is an event that helps raise money to fight cancer. All the proceeds go to researching to find a cure for this terrible disease.

Many Fermi students and staff showed their support for this great cause!

Names Program

"Names Can Really Hurt Us" is a program designed for Sophomores to learn the effects of bullying in high school. This years program, as always, was a success due to the overwhelming support from all students and staff.

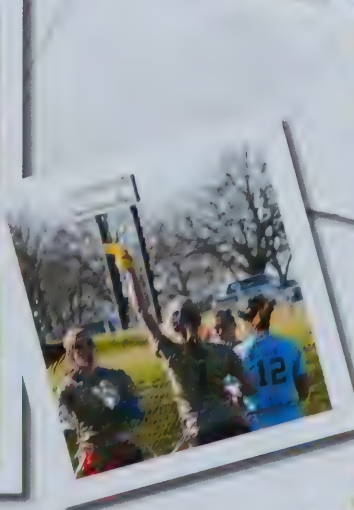

Our Sophomores get involved with the Co-Facilitators while brainstorming positive things to stop bullying at Fermi.

Pep Rally Day

Seniors

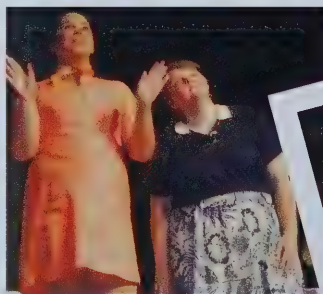

This year, Fermi held its second annual Juniors vs Seniors Powder Puff game. It was a little rough, but it was a blast!

SCORE: Juniors - 21 Seniors - 0

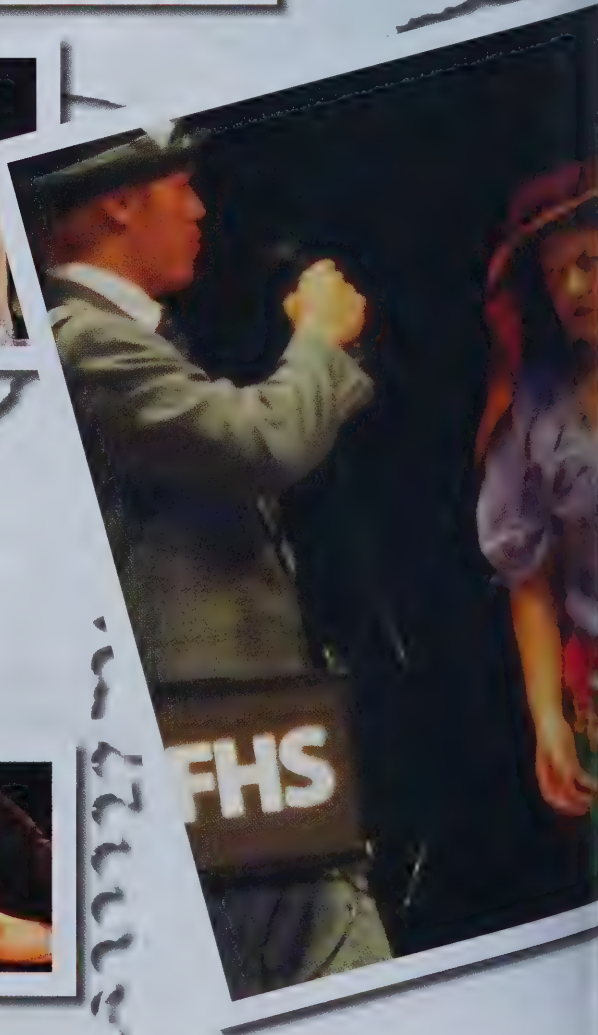

Lamplighters

In November, the Lamplighters presented "Ditch Day" a laff happy farce where nine seniors ditch school and embark on a wild treasure hunt!

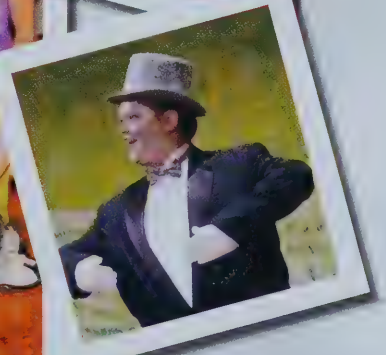

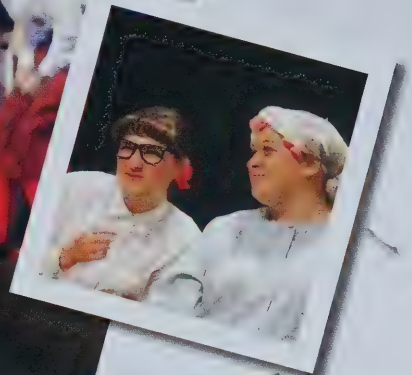

"What about Bill from the Bill of Rights? Did he die in vain?!?"

The students set out to find a painting, a mechanical man, and a surf board.

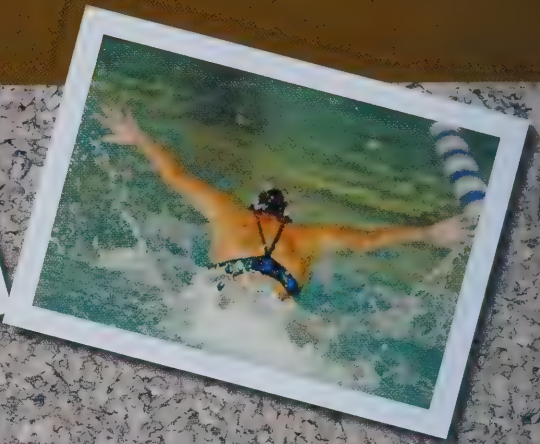

**'DITCH DAY! DITCH DAY!
DITCH DAY! YEAH! YEAH!
YEAH!'**

Cheerleading

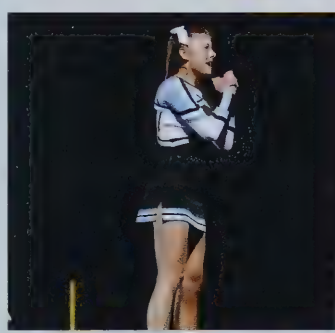

Fermi cheerleading was amazing this year. We did great at camp, coming home with 2 first place trophies and a few All American cheerleaders. We had so much fun bonding as a team not only before camp at fires but also on the bus to camp, and making spirit bags for each other. We stuck

strong when Coach Kelly was out for six weeks working together to get used to the new coach. We had a blast at the

football and basketball games. Keep up the good work. We're going to miss you all.

Cross Country

Record:

Girls 4-3

Boys 3-4

These past four years on the cross country team have been full of hard work, fun, and memories that will last a life time. The team formed a bond that allowed us to become a family, and enjoy many good times together. Going to practice everyday didn't seem like a chore, but rather a blessing to be with so many talented people. We will never forget having to run up hills till our bodies ached, running distances so long that we were all exhausted and then in the end still being able to joke around. We all put in 100% effort no matter what the

workout or meet brought upon us. We wish our teammates much success beyond Fermi, wherever their paths should lead, and we will always remain a family.

11-4-1

Ladies,

We had an awesome field hockey season with a record of 11-4-1. We accomplished something this year that we haven't done in over a decade, winning a first round game in states. We worked hard as a team both on and off the field. The dedication by all was proven in our season wins.

We formed great friendships and made many memories that will last a life time. Always remember play with heart! Love your Captains, Ashley and Kerry

Not only was it a great honor for us to be nominated as captains this year, but it was a pleasure to be a part of such an amazing group of girls we like to call the Fermi Girl's Soccer Team. Throughout these past four years we have not only grown as soccer players, but as a team. We started to develop bonds with one another and started to create friendships that will last a lifetime. Although we did not make it far into states this year, we maintained a positive attitude and we hope we left the girls with hope for next years challenges. We especially want to thank our wonderful coaches Bob Evans, Mrs. Mazzone, and Mrs. Fliesher for leading us through a great season and keeping our team together. The season ended full of memories on and off of the field and we would like to thank our team for making our last year here with Fermi Girls Soccer a most memorable one. Keep up the great work girls and remember to always give it all you got. Good luck next year, we will miss all of you.

Indoor Track

"Some people run a race to see who's the fastest, I run to see who has the most guts."

The indoor track team had a good season this winter. We had a lot of personal bests and records were broken. Even though we don't have an indoor track of our own we still managed to compete and beat other talented teams. The memories that we have created will always be remembered, from bus rides to practices we always had a good time. Since track is more of an individual sport

we still became a family and were there for one another. Thanks for a great season and good luck to everyone next year!

Letter From The Editors

Let us start off with: this year has been hectic. Not only with the yearbook, but the many snowstorms as well. There were many times we hated this yearbook, and we didn't think it could or would get finished. Every deadline we managed to finish the night before it was due with a lot of stress. We've put countless hours into this yearbook, with help from our staff, our advisors and our Jostens Representative.

This years theme started with just one word: integrity. This one word quickly became our yearbook. Integrity is a huge part of Fermi High School and we wanted to represent who we all aspire to be: Responsible Citizens and Lifelong Learners. We hope you enjoy this yearbook as much as we are proud of it.

Your 2011 Yearbook Editors,
Miranda and Tessla

Thank You!

We owe MANY thanks to the wonderful people who have helped us put together a fantastic yearbook. Firstly, our incredible advisors, Mrs. Joeckel and Mrs. O'Rourke, who surely must have been equally as stressed as us throughout this whole process. Kevin Myjak, our Jostens Representative who has received countless emails from us the night before a deadline for help, and everytime he helped us tremendously. This yearbook would not have been able to be finished on time or well done without his help. Also, the yearbook staff who put together many of the pages you see in this book (in no particular order):

Meet Rebekka!

"The journey of a thousand miles must begin with a single step." I made this one step. and it brought me here; to this country, this state, this town, this school. So far, it has been the best journey of my life. Actually, such a journey doesn't start with the journey itself, but it starts in your head. When I was 12 years old, I decided to go to the United States of America for one year; when I was 14, I applied to the best exchange organization in the world, Youth For Understanding (YFU); and when I was 15, I left Germany to spend the school year here. But how is it in life, we always want to blame people for what happened or how we feel. And so do I. It is not my fault that everything here is so perfect, but the fault of many people.

First, my American family: Many times I think how I can only deserve living with them. There are millions of families in this country, and I may live with the best one. I am so thankful that they decided to take me into their family. From the moment I entered the house for the first time, I knew that I will always call it my home away from home. I will always call my American parents Mom and Dad, and my American siblings brother and sisters.

Second, my American friends: They make me laugh, and whenever I see them I have to smile. I would have never thought that I would call so many awesome people my friends by the end of this year. I always have so much fun talking to them, and I don't want to leave them. I hope that they know that I will never ever forget them, and keep them in my heart forever.

Last, but not least, my American town and school: I was so excited being part of a real American High School. The thing is that we Europeans think that High School is so cool in all the movies. Well, I have to say that all of us were wrong. It is not as cool at all. It is one hundred times better! I can't say "Thank you" to Mr. Newton enough for accepting me as a student and for making me a senior, whereas I am only a junior in Germany. Besides, I have to confess that I have never thought that teachers can be so cool, friendly, understanding, open-minded, and helpful. They definitely helped me adjust to this great country very quickly. And all students are so nice. One day, I was walking down the hallway, and someone I have never met before told me that she liked my shoes. Something like that would not happen in my German school. I experienced this school community as respectful, friendly and helpful, and I hope that it will stay that way.

The school activities after class belong to this community. I was a member of Green Club, International Club, and Lamplighters. Green Club is such a good and important part of this school and I am proud to say that I was a part of it. When I think about International Club, I have to thank Mrs. Fay who invited me. Every single meeting was so interesting and exciting. There is no better place in this school to learn about different countries and cultures. But I spent most of the time at Lamplighters. I can't ever find words to describe this thoroughly awesome, great, fantastic, and incredible club. There I met most of my friends, and I didn't know that there could be so many stunning people in one club. It's amazing how they are able to put on two unbelievably good plays. Lamplighters was the drug that made me happy. But like every drug, this one has side effects, too. It burned terrific memories in my head, as unforgettable as the people in the club. Even though I got used to my new everyday life, I still look at this country as if I just stepped out of the plane. And all in all, my expectations were proven wrong. I thought this experience would be awesome and fantastic. But it was much better than this. Now I can truly say that I am a cosmopolitan; that I have found a second family and new very good friends I will always remember and have in my heart. I love them all so much, and if they want to visit Germany one day, I am happy to tell them they can stay at my house. I feel sad that I will have to leave after just 10 months. I don't know when I'll come back, but I know that I definitely will. It wipes the tears from my eyes and puts a smile on my face to know that "it's not a matter of luck; it's a matter of time."

Spring

Talent Show

The Talent Show this year was postponed until April because of all the snow days! The participants still performed an amazing show.

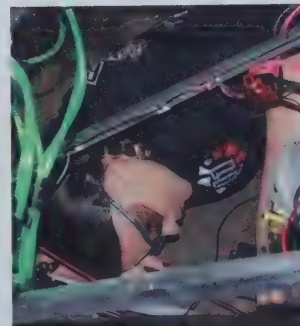

So many different talents. From singing to dancing to karate, Fermi has it all!

Buzz Robotics

The team had a fantastic season. They won the Granite State Regional in Manchester, NH and were finalists at the regional in Hartford, CT. Buzz also competed in the World Championships in St. Louis, MO.

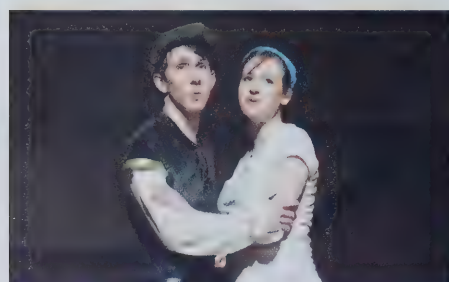

Congratulations to all members on a great 2011 season! Go Buzz!

Buzz members work day and night for six weeks to create the final robot. This was Buzz's 16th year as a team. The program could not be possible without the tremendous support of Hamilton Sundstrand, their mentors, and their families

Lamplighters

Fantasy meets reality in the musical comedy, "Mirror Image!" The Wicked Stepsisters venture into high school to become the "Queen of Mean," but an incidental character, Woodsman, and a hardcore realist, Danica, are ready to "Save the Day!"

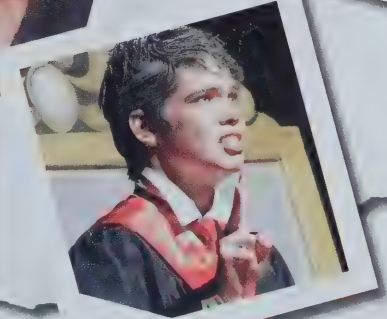

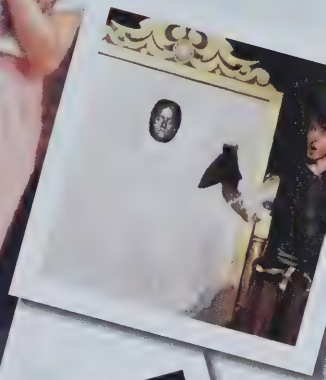

The fairytale world falls apart because the missing characters cannot play their parts!

The high school has everything: bullies, nerds, band geeks, cheerleaders, and jocks.

"You can find true romance, find out who you really are. If you can take the chance, it's straight on 'til morning from that second star! Best of both worlds!"

This musical took place on April 1st and 2nd, 2011. The audience totaled over 700 people between the three shows.

France and Spain

On April 15, 29 students and 5 chaperones left for France and Spain for 10 days. They went to Paris, Arles, Barcelona, and Madrid. Everyone had a great time!

Integrity is acting upon values and morals to better the community in a positive way
-Anonymous

If by winning a competition of any sort, and I lose the respect of my competitors, than I have not truly won

Integrity is individuals from all kinds of backgrounds coming together as one for the better of their community

Integrity is being one but not the same

Integrity is not caring whether we win or lose, just how we played the game and the spirit behind it.

Integrity is being honest and responsible and being a well-rounded, whole person - Kayla Kamerer

Integrity is what we do, what we say, and what we do.
